

4 – 8 March 2024 | University of Stuttgart, Germany

3rd Young Mathematicians in Model Order Reduction Conference

YMMOR
2024

The Young Mathematicians in Model Order Reduction conference aims at bringing together early career researchers that are working in the broad field of Model Order Reduction and related topics. Therefore, the focus of the conference is to foster scientific exchange and networking among PhD students, master students, and early postdocs.

Every participant is expected to give a talk in an informal atmosphere about his/her research or a topic he/she is interested in. Furthermore, there will be plenty of time for discussions on open questions and future research perspectives.

The conference is expected to be fully on site.

Organisers

Tobias Ehring | Robin Herkert
Sanath Keshav | Jonas Kneifl
Mattia Manucci | Jonas Nicodemus
